

EDUCATING SHEEPMEN IN WOOL GROWING

WOOL CAR'S LONG TOUR SHOW-
ING WOOL VALUES IN
FOUR STATES

WASHINGTON, D. C., May 2.—The wool car of the U. S. department of Agriculture which left Livingston, Montana, on January 19th, has given demonstrations in more than 50 towns of the important sheep-growing states to at least 6,000 persons directly interested in wool growing. Since leaving Livingston, the car has been touring Montana, Idaho, Wyoming and Utah in order to demonstrate to sheepmen that the production of better wool means more money to them. The tour is the result of co-operative arrangements made between the bureau of animal industry of the department of agriculture and the agricultural colleges of the four states named.

The trip of this car is regarded by wool specialists as the most important educational effort that has yet been made in aid of the sheep industry, which provided 9 states, embracing one-third of the total area of the country, with the greater part of their income. In recent years a wide interest has been aroused in the better preparation of wools for market. At the same time, however, there has been in some quarters a certain doubt whether the financial returns would repay the attention and expense involved in a departure from the present methods, or rather the present lack of methods. The more progressive sheepmen have realized that the success of the movement is dependent upon general co-operation among the wool growers. This can hardly be expected in the absence of familiarity with the market grades of wools and a knowledge of the wide differences in value possible in wools of the same grade. It is to furnish this information to practical sheep men that the demonstration car is now making its tour.

In the car are live sheep with fleeces representing the main market grades grown in the section in which the car is traveling. Above the crates holding the sheep are cases containing similar fleeces, the grade, shrinkage and value of which are clearly indicated. Stationary magnifying glasses show the distinctions in the fineness of the various grades of small samples.

DRUNKEN INDIANS INCREASING BY DRINKING LINIMENT

Recently the number of drunken Indians around Tonopah has grown to be such a nuisance that the police have been called to take steps for suppressing the bootleggers who sell them liquor. One of the favorite beverages is a certain liniment that contains high percentage of alcohol. The federal authorities have taken the matter in hand.

WHISTLING CONCERT AND DANCE TONIGHT AT AIRDOME

The ladies who have been engaged in promoting the concert for the benefit of Mrs. Cresswell have been singularly successful in disposing of tickets and there is no doubt that the Airdome will be packed this evening by one of the finest audiences seen in Tonopah. The programme comprises some excellent numbers and at the conclusion of the musical part of the bill the floor will be cleared for dancing. This will not be a jitney affair as the price of admission will give the privilege of the floor. The programme is as follows:

ACTIVE WORK RESUMED WITH DEEP SINKING

SAN FRANCISCO COMPANY PRE-
PARING TO SINK DEEP SHAFT
UNDER LEASING PLAN

The Gold Hill Development company, a subsidiary of the Gold Hill Nevada Gold Mining company operating in the Lone Mountain district has resumed work for the season with the intention of sinking the main shaft from a depth of 464 feet to below the 800 foot level. The present shaft is a single compartment and a manway, supplied with a bucket and the latest safety crosshead which was installed last week. On the 464 level a cross-cut was run 150 feet north and 220 feet south and good assays were obtained, but owing to a change in the formation coming in the shaft it was deemed advisable to go deeper. Work for this year was resumed March 17th under direction of William C. Herman of Oakland. The group is located 14 miles from Tonopah and half a mile north of the Silver Peak wagon road. The equipment consists of an 18 horse power gasoline engine and a 35 H. P. compressor. The croppings shows values of \$46 in gold and silver. The officers of the company are: president, D. Horton; treasurer, C. A. Anderson; secretary, J. M. Cotter.

DODGE DEALER O. K.'s WESTERN MOTOR OIL

H. O. Harrison Co., distributors of the Dodge Bros. car, San Francisco, thing so highly of motor oil made from western asphalt-base crude, that they use nothing else in their demonstrating cars, and all the cars they sell go out filled with this oil.

"We have had a good opportunity of observing its action in the Dodge motor," says H. P. Huddleston, manager of the service department, "both in the hands of our own men and of our customers, and are entirely satisfied with the results. Our motors are free from carbon, compression is at its highest point of efficiency, and we are never troubled with over-heating and laboring of the motor on long, hard pulls."
